CONTINENT DP Digital Porcelain

shown on front: **29927 6x6** & **12x12** Sierra Clay

Continent^{DP} features strong graphics and tones that meld into powerful statements. Natural colors in calm shades are complemented by a strong surface texture reminiscent of slate with long linear clefing. All elements work together to create a rustic yet refined aesthetic.

Field tile formats are 12x12 and 12x24 pressed as well as a 6x6 cut. All formats are available in three earth-toned color options. Delta Haze is a warm gray; Sierra Clay features tones of browns

and reds; and Coastal Sand is true to its name with elements of light tan and cream throughout the graphic. A chair rail, chair rail stop, and bullnose in each color complete the line.

Continent^{DP} is appropriate for most interior applications in both residential and commercial settings. It is made in the USA in our Green Squared[®] certified Advanced Manufacturing Center in Lawrenceburg, KY. It includes pre-consumer recycled content and is GREENGUARD[®] and Porcelain Tile certified.
